

The background of the slide is a close-up, slightly blurred photograph of a network switch or patch panel. It shows rows of ports with various cables plugged in, including Ethernet cables with RJ45 connectors and fiber optic cables with LC connectors. A prominent vertical red bar is on the left side of the image.

# Company Information

June 2018

# About Our Company

Comtec Data Solutions supply, install and maintain electronic intrusion detection security alarm systems, copper data cabling, fibre optic cabling, CCTV solutions, antennas, satellite dishes and associated communications civil and construction related works.

# Quality, Service, Safety

Established in 2013, Comtec is a wholly Karratha based business that provides customers with responsive, excellent quality, reliable and affordable local support.

We have a team of experienced installers and consultants.

# Capabilities

Comtec Data Solutions offers our customers a unique but complete skillset that sets us apart from our competitors.

With our Telecommunication experience and Security and Cabling Services we are uniquely positioned to solve any challenges. We also have vast knowledge and experience of operating and implementing working solutions in the unique Pilbara environment having regards to the extreme weather conditions prevalent in the region.
